

# Agnostic Front, Bloodsucker

You hide behind our cause  
Wave a flag for all to see  
We know all your flaws  
Your intent, always greed  
Superseed for your greed  
Stab our backs, we bleed  
No shit, we won't take  
Realize you're just a fake  
Played your games with no respect to me  
Now I see you're no friend to me  
Sucking the life right out of me
