

# Agnostic Front, Society Suckers

Spending your life dreaming of rich fantasies  
Come back from your dreams and face reality  
You think you've got everything, but really have nothing  
It's just too much pressure and your mind is busting  
Watch out don't make a mistake  
You'll lose your money, it's poverty's stake  
Society sucker - you've earned your name  
Society sucker - it's just your game
