

Agonoize, Unchained

How many times, we've tried to be free
How many times, we fail

We've build the weapons, of mass destruction
To destroy summon nature

Unchained, Released
Unchained, Released
Our Power, our Force
We've lost control
Unchained

Fighting, man against man
There'll ever be, lies in words
Following minios, collected by power
One world, one lie

Cold war, nation against nation
Unweary, what beauty they violate
They know, what power them possess
They hold the key, for the ultimate death

War laeds to terror, terror leads to war
War laeds to terror, terror leads to war

Unchained, Released
Unchained, Released
Our Power, our Force
We've lost control
Unchained

Unchained, Released
