

# Ahead To The Sea, An Eye For An Eye

Could violence be an answer on activities  
Who are a threat against human rights and dignity  
Who boot down our laws with a steel cap boot  
I've got an answer straight and crude

"Refrain:"

A tooth for a tooth, an eye for an eye  
Beat them with their weapons, fight fire with fire  
We have to speak their language and seek  
When they are weak... score where they are weak

If you chose this way make sure you won't forget  
Direct Action means to use your head too  
There must be a difference between right and left  
A difference between them and you

"Refrain"
