

Ahead To The Sea, Minds In Fear

Boot down their doors if you don't get in
Scream if you are not heard
Shout and scream if they shut their ears
And set their minds in fear

Boot down their doors if you don't get in
Scream if you are not heard
Shout and scream if they shut their ears
And set their minds in fear, in fear, in fear...

"Refrain:"

In fear, set their minds in fear
Set their minds in fear

Share your dreams, create ideas
Reclaim the streets
Put up a stage and out the gear
And set their minds in fear, in fear, in fear...

"Refrain"
