

# Ahead To The Sea, Not My Country

The enemy lies here within  
He thinks he got us on a string  
But know myself who's friend or foe  
Never, never, never, no...

"Refrain:"

I would never fight for my country  
'Cause it won't fight for you and me  
I would never fight for my country

Instead social security  
We got internal one you see  
Their eyes are everywhere I go  
It's for all the best I know...

"Refrain"
