

Aidan Hawken, Get Over Yourself

One's all I need
Maybe two or three
Try it sometime
And you'll see what I mean
Nothing to lose
Don't be confused
It's only making me happy
Get over yourself
Rose colored glasses
Part of the masses
Just one more line
I'll be feeling fine
You shouldn't talk
With your black board and chalk
It's making me happy
Get over yourself
Katie come on listen
Don't block the sun from your eyes
Don't know what your missing
In control of your life
You know I'll never try that
But I'll get over myself
If you get over yourself
Look in the mirror
Nothing to fear
Once I was blind
Now I see it so clear
Rose colored glasses
Things move much faster
It's making me happy
I don't need your help
