

# Aimee Mann, Could've Been Anyone

It's so hard not to blame you  
it's hard not to put all the blame on you  
'cause you knew from the start  
there was one little part you would not let through  
I'm sure there were even moments when you thought  
You might someday finish what you'd begun -  
but that could've been anyone

could've been anyone  
I lost my place in the sun  
well, never mind  
it could've been anyone.

So we all make mistakes  
it just figures you'd make me the biggest one  
I was saving it up  
now it's spent and I don't know  
what I spent it on  
now I find if you try hard enough  
you can wear it down 'til it's just about gone -  
'til you could've been anyone

you could've been anyone  
lost your place in the sun  
well, never mind  
could've been anyone.

Your pattern is different  
than what it implies  
the words may be true but  
I realize -  
it isn't description so much as disguise.  
Don't worry, you can learn to live without  
you've got a lifetime of that to draw upon  
and anyway -

it could've been anyone  
you lost your place in the sun  
lost your place in the sun  
oh, you lost your place in the sun  
well, never mind  
it could've been anyone  
never mind  
never mind  
(I think that's enough now)
