

# Aimee Mann, Guys Like Me

Guys like me, we don't know how it feels  
Absentee even closing the deal  
For every player there's a payoff in the final reel  
But never with guys like me

Cause guys like me we're real good at the gate  
But you'll agree with the odds on the slate  
And put your money on a bona fide heavy weight  
And take it off guys like me  
Take off guys like me

They'll pull you close but never really  
Looking warm but feeling chilly  
You'll describe us as impassioned  
When it's just a front we fashion

Cause guys like me, we all vow to become  
Clear and free of the fife and the drum  
And block the circulation till we all completely numb  
Let's hear it for guys like me  
Let's hear it for guys like me  
Let's hear it for guys  
Guys like me
