

# Aimee Mann, Put Me On Top

I should be knocking on the door of the pearly gates  
why keep a poor man alive in a job he hates  
I've heard that good things will come to he who waits  
I should be riding on a float in the hit parade  
instead of sitting on the curb behind the barricade  
another verse in the doormat serenade

Won't you put me on top  
won't you put me on top, or change the odds  
won't you put me on top  
or at least put some hope in the bottom of the box

Oh, at least put some hope in the box for me  
'cause it's only black and white and not a lot of each  
there's a remote on the shelf, but it's out of reach

Won't you put me on top  
won't you put me on top, or change the odds  
won't you put me on top  
or at least put some hope in the bottom of the box

Put some hope in the bottom of the box  
I need it
