## Air Supply, Evidence Of Love

When I look for the love in your eyes
You turn away
And there's nothing as loud as the words
That we never say
Look at us now
Standing on the edge again
It's not too late to try again
I need some...

CHORUS
Evidence of love
To keep on going
Show me some evidence of love
And I'll be here
I still believe we can see this through
There's only so much I can do
And it doesn't make sense
Without some evidence of love

There's a frozen look on your face Is it saying goodbye Cause there's nothing as cold as the ashes When the fire has died Talk to me now

Tell me what you're missing Talk to me now And try to find your heart again I need some...

## **CHORUS**

Stand and fight Gotta say what's on your mind, baby So much is on the line Here's a chance to make it right

Talk to me now
Tell me what you're missing
Talk to me now
And try to find your heart again
I need some...

## **CHORUS**
