

Air Supply, I Just Like The Feeling

I just like the feeling
You give me when the time is right
I just like the feeling
When you tell me you'll be here tonight
Let me believe that this moment is good for you too
When you leave it's not really all through
Does it get to you
I just like the feeling
Of pretending that some day you'll stay
I just like the feeling
That your love is not too far away
Tell me again
That you'll stay for as long as you can
When I'm really not part of the plan

I just like the feeling
I just like the feeling
I just like the feeling
Closest to love

I just like the feeling
When you're next to me without a sound
I just like the feeling
When you tell me that you're all unwound

One night I'm yours and tonight
You can have nothing less
Tomorrow I long for the rest
Tell me a lie
If it helps me get through one more day
You know I'll be here anyway

I just like the feeling
I just like the feeling
I just like the feeling
Closest to love

One night I'm yours and tonight
You can have nothing less
Tomorrow I long for the rest
Tell me a lie
If it helps me get through one more day
You know I'll be here anyway
