

Air Traffic, Still In Love

I'm still in love with the girl
Its all her, now she knows I'm on my own
I, I watch her come and I watch her go
Shes knows my name and she thinks I'm lame
Its like a game of lust and i don't know which way to turn
She, she takes me to another world
So turn around, face the crowd and let it out
I'm so afraid I've been betrayed
Just come away until the day I find the words to say
The things I feel about her now
Shes such a tease and hard to please
So come on girl, I'm on my knees set me free
At last I'm losing it bit by bit
You've gotta help me to find some peace of mind I'm so blinded
I'm still in love with the girl
She is my night and my day
She has become my every word i say
