

Air Traffic, Your Fractured Life

You enter your room it's a lonely world laid out on the floor
And you're running away from the fractured life you've pinned to the walls
Cos if you can't work out what's right and fair its time to escape
And on the other side there's an endless light to brighten the way
Take my breath and my whole life too please don't let me down
Cos to come undone without warning is to lose what we found
You've got the strength within and don't give up there's so much more to see
So many things beyond your wildest dreams
They'll never stop you if you just believe
The world is at your feet
*The future's wide and clean
The future's warm and bright
We're gonna be alright*
The world is at your feet
*The future's wide and clean
The future's warm and bright
We're gonna be alright*
Please don't let me down,
Please don't let me down,
Please don't let me down,
Please don't let me down,
Please don't let me down,
Please don't let me down,
Please don't let me down,
Please don't let me down
