

Airbase, Interfere

(feat. Floria Ambra)

You may not even know me
You may not even care
I know what Ive been searching for
Through the coldest night
To hold me near
Its just a certain feeling
That Ill be waiting for you my heart
Its just the sweetest songbird
And it comes with you
Please may I interfere, my dear?
And it helps me through
May I interfere?
You may not even know me
You may not even care
And I long for this fire
Listening to you
Oh yes, I swear
Its just a certain feeling
I been addicted to your sight
I hang around your presence
Waiting for you
To let me come, let me come inside..
Waiting for you
To let me come, let me come inside..
Im waiting
Please let me come, oh let me come
Please let me come, let me come, oh..
May I interfere, my dear?
Will you let me come you near
To let me interfere, my dear?
Im so pleased, pleased to be here.
May I interfere. my dear?
Will you let me come you near
I would love to interfere
And come you near and interfere..
May I interfere, my dear?
Will you let me come you near
To let me interfere, my dear?
Im so pleased, pleased to be here
