no, you, you can't  
no, you, you don't want to  
unfortunately you, unfortunately you, you can't or don't want to  
not you, you won't understand  
any explanation, any explanation, any, any it's no use  
no, you can't, you, you don't want to, you won't understand  
it's not a sensation, it's not an obsession, it's not an alienation state  
mine is just a clear and plain statement  
the world is dead, the world is dead, the world is dead thirty years ago  
the world is dead, the world is dead, there is nothing, nothing anymore  
the world is dead, the world is dead, the world is dead, thirty years ago  
the world is dead, the world is dead, there is nothing, nothing anymore  
no explanation, no explanation, none, none, it's no use  
no, you can't, you, you don't want to, you won't understand  
it's not a sensation, it's not an obsession, it's not an alienation state  
mine is just a clear and plain statement  
the world is dead, the world is dead, the world is dead thirty years ago  
the world is dead, the world is dead, there is nothing, nothing anymore  
the world is dead, the world is dead, the world is dead, the world is dead...
