

Aitch, My G (feat. Ed Sheeran)

No other name for you
Even though they call you by another
You were always my G
And you light up the room
Ever since the first day you were here
You were always my G
And if the world is cruel
I will be the last one standing here to protect you
Don't grow up too soon
For now and till forever you were always my G

Yeah
Yo G
Ha
You probably won't even understand this
So imma try and paint the picture on a canvas
Just wanna tell you you won't ever get abandoned
Can't lie I started writing and got anxious
But you're my biggest blessing
What a life that I've been granted
One in a million couldn't try it if we planned it
Don't mind me just fly free you're my G

Shit ain't easy this a different type of love
Every time we greet you get a different kind of hug
All the memories that we keep
You and me could write a book
And we're still not done
You're my G till time is up
Out in public you walk past them they might look
Keep smiling baby girl and watch the day gone brighten up
Know I'm still with ya
I'd kill for ya
If someone tried their luck
Can't even sip my drink
I'm spilling tears inside my cup

Knew you were special from the minute you was born
Un-identical twin but so different from them all
So happy when I met you and your sister on the ward
You know big bros here to come and lift you if you fall
I know hat will take of you when I'm gone
That's my angel she'll be stable until I'm one
I wish Tony seen you grow but shit we ride on
Looking back at old pictures where's the time gone

No other name for you
Even though they call you by another
You were always my G
And you light up the room
Ever since the first day you were here
You were always my G
And if the world is cruel
I will be the last one standing here to protect you
Don't grow up too soon
For now and till forever you were always my G

Yeah
Heart broke when i found out there's a hole in yours
Had me stressed out for weeks but I cope of course
No way you would have left us
You was three months old
You got a long life ahead of you
I know there's more

To make you happy is what I'm hoping for
Can have anything you want
I took an oath I swore
Baby live your best life you shouldn't grow by force
All in your own time G
The globe is yours
Yeah

You got us wearing odd socks on the 21st
People laugh but we're too strong for it to ever hurt
They might try and bring you down but it'll never work
When you smile you just light up the room
I ain't never met a person that's brighter than you
Say I love you and i mean it every time that I do
You little shit you got me crying in the booth
Tryna do mum proud
Tryna do dad proud
Tryna do you proud
Tryna do Hat proud
That's why I'm trying 5 years I ain't sat down
And all I've heard is your voice in the background
Don't say a word before you chat I just know it
If I answer facetime you gunna ask me where Joe is
Swear to god you're just amazing little girl
From the bottom of my heart
I wouldn't change you for the world
Yeah

No other name for you
Even though they call you by another
You were always my G
And you light up the room
Ever since the first day you were here
You were always my G
And if the world is cruel
I will be the last one standing here to protect you
Don't grow up too soon
For now and till forever you were always my G

No other name for you
Ever since the first day you were here
You were always my G
And you light up the room
Don't grow up too soon
For now and till forever you were always my G
