

Aivaras, Happy You

Wanna show to you alone
The world around us high and low
Glowing stars and dancing Moon
Happy I 'cause happy you
Close your eyes and make a wish
Could it be a scorching kiss
You're my sweetest mountain dew
Happy I 'cause happy you
For our dreams came true
They always do
Watching the sunrise, beautiful red skies
Hoping this day will never end
Singing a love song with a perfect rhyme
A song of love composed for you
Love brings passion, love brings joy
Love brings riches we enjoy
All is wonder, all is new
Happy I 'cause happy you
For our dreams came true
They always do
Watching the sunrise, beautiful red skies
Hoping this day will never end
Singing a love song with a perfect rhyme
A song of love composed for you
(Watching the sunrise)
Baby, it looks great
(Singing a love song)
Baby, it sounds great
Watching the sunrise, beautiful red skies
Hoping this day will never end
Singing a love song with a perfect rhyme
A song of love composed for you
Watching the sunrise, beautiful red skies
Hoping this day will never end
Singing a love song with a perfect rhyme
A song of love composed for you
