

AJ Mitchell, All My Friends

These rooms got a lot of space
Crowded, but a lonely place
Sittin at a table full of double takes
And everywhere I go, I wanna see your face
Pictures, I'm reminded of good times
How we tried it
Don't know how to get you out of my head
I don't have it in me to deny it

cuz everybody
everybody knows something I don't
and I wonder
and I wonder hot to keep a good thing going

all my friends are falling in love
all my frends are locking it up
but I can't seem to settle down
cuz I am waiting on you to come around
while all my friends are falling in love

they say that love is truth
I'll find somebody new
everybody looking like a honeymoon
but all that I've been looking for is me and you
cuz everybody
everybody knows something I don't
and I wonder
and I wonder hot to keep a good thing going

all my friends are falling in love
all my frends are locking it up
but I can't seem to settle down
cuz I am waiting on you to come around
while all my friends are falling in love

falling in love
falling in love

cuz everybody
everybody knows something I don't
and I wonder
and I wonder hot to keep a good thing going

all my friends are falling in love
all my frends are locking it up
but I can't seem to settle down
cuz I am waiting on you to come around
while all my friends are falling in love

falling in love, falling
falling in love, falling

I can't seem to settle down
cus I am waiting on you to come around
while all my friends are falling in love
