

Akashic, Salvation

I taste the tears on my thirsty lips and tongue
Fill me with all verve and make me live
The venom burns and then the spit kills the salvation
Take away this bane and heat my veins

You came to rescue me
I show you my worship
The power of my hope

I feel the heart to survive across this land
Misty dreams came in my head again
Of the days and nights
Another soul is pure and safe
Lifetime - Gave me - Timeless - Dreams to - Fly
The flames are burning far

You came to rescue me
I show you my worship
The power of my hope

Now I go through the time, feeling no weight over me
Light as a silk, floating in the air
The power of your hand and the strength in your eyes
Helped me
Trust and love stand by my side

I feel the heart to survive across this land
Misty dreams came in my head again
Of the days and nights
Another soul is pure and safe

You came to rescue me
I show you my worship
The power of my hope
