

Akcent, I turn around the world

For you my love, I'll bring the stars together
For you my girl, will count them all
For you my love, I'll make my place look better
For you my girl, always be on call
For you my love, I'll bring the stars together
For you my girl, will count them all
For you my love, I'll make my place look better
For you my girl, always be on call
I wanna take you for a ride
I want the stars the
I'll be the one to catch your fall
I'm not afraid to madly fall in love
(Love, love, love, love)
For a special girl
I turn around the world
For a special girl
I turn around the world x2
For you my love, I'll bring the stars together
For you my girl, will count them all
For you my love, I'll make my place look better
For you my girl, always be on call
I wanna take you for a ride
I want the stars the minute hits the sky
I'll be the one to catch your fall
I'm not afraid to madly fall in love
(Love, love, love, love)
For a special girl
I turn around the world
For a special girl
I turn around the world x2
I know our love will last forever
You and I will be together x3
For a special girl
I turn around the world
For a special grl
I turn around the world x2
