

Akcent, S.O.S. (Eng)

I read again the letters you send to me
They make me feel you walking here next to me
And hold each other hands like we used to do

I miss you

Lost in the cold night

Blinded by moonlight

I'm looking for love

Lost in the rain storm

And finding my way home

To be next to you

Couse I love you

Chorus x2:

I send a SOS

To hear my lonlyness

Will somebody answer my calling

SOS

I send my love to you

I hope you miss me too

Please set my soul

I'm falling

Falling

I wake up in the night

And I cannot sleep

I have you on my mind

And it hurt so deep

All the memories about you and I

Make my cry

Lost in the cold night

Blinded by moonlight

I'm looking for love

Lost in the rain storm

And finding my way home

To be next to you

Couse I love you

Chorus
