

Akinyele, Fuck Me For Free

Lefrak City, Queens Yo this is Akinyele with my mans Complexion and right now we representing all the guys with more than ten dollars in they pocket who still gone be playin even though they not payin for the whole night. You know what I'm sayin?

(chorus)

Girl would you fuck me for free?
(Girl would you just fuck me for free)?
One fuck, One fuck
Girl would you fuck me for free?
(Girl would you just fuck me for free)?
Two fucks, Two fucks
Girl would you fuck me for free?

Yo if I ever had to go out spending cash for ass
I get it some Quarterback shit and I'll just pass.
I'm a little too fast for ya'll gold diggers
On that O.J tip straight tryin to duece a nigga
That's why I don't believe in holidays, or meeting your moms, eating
out, a restaurant or taking your ass to that prom.
I'm straight up like the collar on the foreigners
Living like our daughters are runnin ones Perion
Ladies fucking men for money all night long but that's foul like a nigga
eating swan while reading the Qu'ran
The fire run game on they brain
You cats is dying died her up in the Ramada
With eight bitches and a pie pizza filled with anchilates
And all ya'll girls can have a slice on me
Cause tonight me and my people we fucking for free

(chorus)

You know how it is on these streets tryin' to make a million
If I was talkin square biz I'd be out sellin' Cicilians
Imagine I would pay for all the girls I fucked
I'd be broke as fuck with a broken heart
Plus I can't fuck now what the fuck type of shit is that in this
position cause I was trickin like a magician
Girls in the world tryin to take your bread
Put your wallet in your hat nigga and hold your head
It's the Akinyele, you know I rock well
Girl I get up in that ass like K.Y Gel
Said, if I want to fuck I gotta spend cash
Niggas must have had they tongue in your butt
cause you cause you talkin' out your ass.
Huh, I just came to bust a nut
But if you want me to go down south girl listen up
"I wanna fuck" I said "I wanna fuck"
Yo, the farthest south I'm going is the accent
Check it out " I wanna fuck" huh huh huh

chorus until fade
