Sex in the city me and you one on one

Sex in the city me and you one on one  
Let's see who'll be the first to make the other cum

(Christine McLean)  
I know you like the way I'm working my shit  
I'll be that freak bitch put the mind on your dick  
Lick a pussy push up I perfected my grip  
Just watch me do tricks while you play with my clit  
Wish I don't take my pillow  
Hope you go down below  
I know you like shit like this

(Akinyele)  
Ha turn your ass around now  
Look at the pillow and bow down  
Keep your feet flat on the ground  
Now don't make a sound  
I swear it won't hurt a bit  
Once I insert the dick  
Cause it's all in the way we work this shit  
It's your hair I pull  
Giving you multiple or-gas-ums  
Pass me some  
Make you cum  
More than one  
Then I'm done  
To my Haagendaas cock magnum  
Start raising like rum  
Son of a gun, hun  
There aint a girl in this world I can't fuck for  
free  
Ever since I dropped my last EP  
Now my dick be  
In the hole where she pee pee  
I might get freaky  
Open up my ass cheeks and let her eat me
