====English====

&lt;/lyrics&gt;  
The stirring trap in the dark vortex is  
A black rose illusion  
Even now the crimson thorn that pierces my heart  
Is an immovable fate  
Bored with today, the god of light Bardor

TIME DIVER Where have I come from  
And where will I go  
The maze of time

Fire! R-Gun  
The magnum shooting down the unseen tomorrow  
Fire! R-Gun  
Shatter the agate colored past

Swayed by the  
Writhing black waves of time  
Accepting the wind called ambition in my black sails  
Being drifted along

A poisonous bee with the face of an angel flutters  
The devil's garden invades the sky  
Someone summons the mask of kindness  
A deceitful love  
Melts into an infinite darkness

TIME DIVER Memories lost long ago  
The comforts of yesterday still latches onto me

Fire! R-Gun  
Do not hesitate to shake it off  
Fire! R-Gun  
There is nothing more to give

The pitch black guard dog of Hell Cerberus  
Incinerate it all  
All that gets in my way, bite through them  
To your heart's content

Fire! R-Gun  
Eternal slumber to the target  
Fire! R-Gun  
Silence to the fools who rebel

He who sinks into the darkness  
Is the Lucifer of Time  
Even if judgement day come I fight  
As fate wills
