

Akissforjersey, Leave That Man Be

Keep your head above the water, just so long enough
A current breaches a so called reef
I won
Things will change
I

Hold my hand and lead the my way
I
And you
I
Of how to find my way back out of the dark and back to you
You

Oh we
Throw out the captives, leave that man be
Wait for the sign, forgive, forgive us
Don

A dead silence rings out, a call to all of those in doubt
A brilliant light leads me home

Hold (4x)
Hold my hand and lead my way
I

Sacrifice Yourself (3x)

Turn around, turn around, lay it down now
Turn around, turn around, back down (3x)
