

Akon, Keep You Much Longer

Wish I can keep you much longer
I know you gotta go, cause you got thangs to do
Wish I can keep you much longer
Now you too busy for me, girl like I was to you
Wish I could just stop by, and maybe say hi
Wish I could just stop by, and lay by your side
Wish I could just stop by, and maybe say hi
Wish I could just stop by, and lay by your side

Verse 1 -

The tables have turned, and I've finally learned
That this is makin-up for every day I was gone
That's why I'm concerned, but now must confirm
That you spread your wings, and learned to fly with all the load

Hook -

Darkness in the night, I'll find that light for you
As long as I got eyes, I'll have a sight for you
As long as I'm alive, baby I'll die for you
Wanna be with you

Chorus -

Wish I can keep you much longer
I know you gotta go, cause you got thangs to do
Wish I can keep you much longer
Now you too busy for me, girl like I was to you
Wish I could just stop by, and maybe say hi
Wish I could just stop by, and lay by your side
Wish I could just stop by, and maybe say hi
Wish I could just stop by, and lay by your side

Verse 2 -

Your always on my mind,
While I'm racing, while I'm paper chasin,
You were there when I said one day I get up out that basement
Playin as my agent, boy you there is no replacement
you will always be my girl, they can quote me on that statement

Hook -

Darkness in the night, I'll find that light for you
As long as I got eyes, I'll have a sight for you
As long as I'm alive, baby I'll die for you
Whatever with you

Chorus -

Wish I can keep you much longer
I know you gotta go, cause you got thangs to do
Wish I can keep you much longer
Now you too busy for me, girl like I was to you
Wish I could just stop by, and maybe say hi
Wish I could just stop by, and lay by your side
Wish I could just stop by, and maybe say hi
Wish I could just stop by, and lay by your side

Verse 3 -

Baby I know you, and how we do
Doing exactly what I taught you
Gotta get that money first before you
Come spend that precious time with your boo
And I know what I got, just take it
Even You was driving me crazy
Always want to see my girl naked, but lately

Chorus - 2x's

Wish I can keep you much longer

I know you gotta go, cause you got thangs to do

Wish I can keep you much longer

Now you too busy for me, girl like how I was to you

Wish I could just stop by, and maybe say hi

Wish I could just stop by, and lay by your side

Wish I could just stop by, and maybe say hi

Wish I could just stop by, and lay by your side
