

Akrasia, Not Ready (Anymore)

And she said:
It'll happen
Someday if it's meant to be
You know you'll always mean a lot
I know we used to always
Talk about forever,
But I think we'd better stop

[Chorus]
Cuz I'm not ready for you
I'm not ready to be what I think you want me to
Oh, I'm not ready for you... anymore

Oh I got some brand new friends
That I'm with all the time now
So I think our time is through

You've got to understand,
A college girl can't be with one man
Even if that man is you

(Chorus x1)

I think it's better for the both of us
If we just said goodbye
It doesn't feel right anymore
I'll keep your memories in a special place
In my heart, but,
Your ring is goin' in my drawer.

You don't know me now
Hell, I don't even know myself
And there's some things I have to do
Well I found there's more to life like
Drinkin' beer and
Gettin' off with
Other guys that are not you

Cuz I'm not ready for you
Oh, I'm not ready to be what I think you want me to
Oh, I'm not ready for you... not anymore
-ore -ore
-ore -ore
Not anymore
-ore -ore
-ore -ore
No, not anymore
-ore -ore
-ore -ore
