

# Akrobatik, Moondust

Ladies and gentlemen... it is now star time  
Ladies... and gentlemen... it is now... star time  
Let us begin  
It's star time time to shine let's begin  
Open your mind and let Ak-er-o in  
My style come from deeper than Neptune  
Akrobatik came to bring the boom from next tomb to next tomb  
Old school like Space Invaders or Asteroids  
Akrobatik that's the boy he bring the rap world joy  
I bring the joy but I can also show the heinous  
Of your brain in a darker black hole than Uranus  
I swing it for my queen 'cause she love me like Venus  
That's Aphrodite blacks rock your afro tightly  
This year I hold heads don't take Akro lightly  
I rip shit in the Milkyway the stars are unsightly  
Deliverin messages with the speed of Mercury  
Sonin' emcees like Zeus did to Hercules  
I'm breakin shit down to moondust line by line  
It's star time so shine

Shine shine shine it's star time  
Shine shine shine it's star time

Shine shine shine like moonlight

My style will run a ring around the world like Satur-in  
With ill lyric Patter-in  
So hot that all the mercury is splatterin'  
My brain cells are large like Jupiter  
While other kids mentality get stupider and stupider  
Talkin 'bout their street star wars  
Can't rock for eight bars eyes redder than Mars  
Put that rapper on the spot if I don't see that he's tight  
Then I'll shower his platoon with verbal meteorites  
I'm not the type to sweat what the media writes  
Emcees is way off like Pluto 'cause they feed into hype  
A lot of kids heads blow up like supernovas  
But Ak's down to earth so I maintain worth  
It's star time time to shine let's begin  
Open up your mind and let Ak-er-o in  
I'm breakin shit down to moondust line by line  
It's star time so shine
