

Al Green, Standing In The Rain

I've been standing in the rain
The cold hard driving rain
I withstood all the pain
Standing out here in the rain
Do you know my name?
Mister undo the pain and shame
Now, now, everything is in my hand
I'm standing out here in the rain, hey
Write this down if you can
I'm a cold hardworking man, yeah
See this guitar in my hand, yeah
I'm standing out here in the rain, hey, hey
Summer time, let it rain
Let it rain, hey, hey
Summer time, oh yeah, yeah, yeah
Out on the town, oh yeah
Standing, standing here
Standing here, standing here
Standing, standing here
Yes sir, alright, oh yeah
Hey, hey, hey, yeah, hey, hey
I'ma keep on standing right here
Standing out here, standing
Standing, standing out here
Oh yeah, oh my, my, my, my
My, my, my, my, my
Somebody help it rain
Somebody help it rain
No, no, no somebody stop the rain
Stop it, stop the rain, yeah, hey, oh
Yes sir, stop the rain
Yes sir, hey
