# Al Green, You've Got The Love I Need

Whoa, you're beautiful to me
More than my eyes can see
Your hair blowin' in the wind
I don't know why love should end
Stardust in the sky
I either love you or die
I've gotta have you in my life
I really wanna make you my wife
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
Oh, my only friend
The only truth I know
Oh, you taught me things about me
I never thought I'd know
Darlin', you been there for me, yeah
Through the strangest of the time
Oh, it must be meant to be
My kind of little love for mine
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
Stardust blowin' in the wind
I don't know why love should end
I like lovin' you, so
I'll never, never, never let you go
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
You got the love I need, baby
You got love I need, baby
You got the love I need, baby
