

Al Jarreau, Killer Love

Killer love

I've been watching you
you've been watchin' too
so sassy slinky that
I felt the heat at first sight
is this burn for you all right

You smile and start to sway
your satin slips away
this sweet obsession brings
a torch to my dreams all night

Such a killer, such a killer love
such a killer, such a killer love
killer diller, killer love, killer diller
killer love (repeat)
I wanna wo...etc(repeat)

My doctors on the phone
asks me if I'm alone
your heart is beating strong
but fever burns in your eyes
I'm concerned for you tonight

Repeat chorus
