Al Jarreau, Killer Love

Killer love

I've been watching you you've been watchin' too so sassy slinky that I felt the heat at first sight is this burn for you all right

You smile and start to sway your satin slips away this sweet obsession brings a torch to my dreams all night

Such a killer, such a killer love such a killer, such a killer love killer diller, killer love, killer diller killer love (repeat) I wanna wo...etc(repeat)

My doctors on the phone asks me if I'm alone your heart is beating strong but fever burns in your eyes I'm concerned for you tonight

Repeat chorus
