

# Al Jarreau, Tell Me What I Gotta Do

Everyday you're walkin' by  
And I can see  
How you shine  
Here I am alone with nothin'  
But a dream  
That you are mine  
Just exactly what I'll do  
I don't know baby  
But I gotta find  
A way to reach you  
Tell me what I gotta do  
To get to your house  
Tell me where I gotta go  
To be with you  
Tell me what I gotta say  
To speak to your heart  
Tell me what I need  
To know tonight  
So everything will be all right  
Every night I wonder  
Just how it would feel  
Close to you  
I imagine that this  
Fantasy is real  
You love me too  
Got to get from here to there  
Here and now baby  
Open up your arms  
And let me love you  
Tell me what I gotta do  
To get to your house  
Tell me where I gotta go  
To be with you  
Tell me what I gotta say  
To speak to your heart  
Tell me what I need  
To know tonight  
So everything will be all right  
Got to get from here  
To there  
Here and now baby  
Open up your arms  
And let me love you  
Tell me what I gotta do  
To get to your house  
Tell me where I gotta go  
To be with you  
Tell me what I gotta say  
To speak to your heart  
Tell me what I need  
To know tonight  
So everything will be all right
