

# Al Martino, Take My Heart

Take my heart it's yours forever  
Tell me yours is mine alone  
Since we met I can't forget you  
Love like this I've never known

Every single beat tells a sad refrain  
Won't you please believe me  
Darling if we part  
With you goes my heart so don't deceive me  
Hear my plea and say you love me  
Please be mine and take my heart

musical interlude

All you should know I love you madly  
Please be mine  
And take my heart
