

Alabama, Alabama - Then Again

We could walk away now
Call it over and done
Say we fought the good fight
And nobody won
Say we're both better off
That worse came to worse
So we didn't last
Hey, we're not the first
But then again
If we give it one more try
We might find the feeling
Can never really die
And there's still a chance to be
All we might have been
And find the love
We had back then again
Off to such a good start
But somehow it seems
We've let our hearts
Fall apart at the dreams
We could throw in the towel
Walk away with our pride
Say it just wasn't worth
All the tears that we've cried
But then again
If we give it one more try
We might find the feelings
Never really died
And there's still a chance to be
All we might have been
And find the love
We had back then again
Maybe if we want it bad enough
We can make it better than it ever was
And there's still a chance to be
All we might have been
Let's find the love
We had back then again
