

Alabama, As Right Now

You're still the lady of my dreams
You're still my high school beauty queen
To me it's still magic when we touch
And I have never loved you so much
As right now

As right now

You're still my actress on the screen
Still the leading lady in my scenes
To me it's still magic when we touch
And I've still never loved someone so much
As right now

As right now

As right now

Instrumental

You're still the one I'm with when I'm alone
And you're still the lover calling on my phone
To me it's still magic when we touch
And I will never love someone so much
As right now

As right now
As right now
As right now
As right now
As right now
As right now...
