

Alabama, I'm In The Mood

I knock off with a lot on my mind
From a long hard day
Pull in at home, see you and find
My stress slipping away
Then you run to my arms
And give me a kiss
And nothing else matters
When you hold me like this

Chorus:

Girl, I'm in the mood to be your man
To win your heart all over again
Let my eyes trace, let my lips taste
Nothing but you
I'm in the mood to close the door
Make love tonight like never before
Rush after rush, like waves on the shore
Girl, I'm in the mood

All day long, I'm so strong
Then I hear you speak
I'm drawn to your fire, your signs of desire
Girl, you make me weak
I go drifting away
Like a leaf on the wind
I'm under a spell
Your touch put me in

Girl, I'm in the mood to be your man
To win your heart all over again
Let my eyes trace, let my lips taste
Nothing but you

Instrumental

Yeah, I'm in the mood to close the door
Make love tonight like never before
Rush after rush, like waves on the shore
Girl, I'm in the mood

Girl, I'm in the mood

Girl, I'm in the mood

Girl, I'm in the mood...
