

Alabama, Mist of Desire

Alabama
Twentieth Century
Mist of Desire
Well, here it comes again
That old feelin' so strong
You came into my life
I won your love for a song
And when I see you in my mind baby
Think of the words you will say
And in a mist of desire
Your love takes me away

Girl you take me away
In a mist of desire
And our love's not an ember baby
It's a raging fire
I need to be with you
What else can I say
In a mist of desire
Your love takes me away

I feel the love when we touch
I can see it in your face
I get lost in the shadows of your warm embrace
And you rush into my arms
My emotions run wild
And we're off to a love world
In a mist of desire

Girl you take me away
In a mist of desire
And our love's not an ember baby
It's a raging fire
I need to be with you
What else can I say
In a mist of desire
Your love takes me away

In a mist of desire
Your love takes me away
