Alabama, Mist of Desire

Alabama Twentieth Century Mist of Desire Well, here it comes again That old feelin' so strong You came into my life I won your love for a song And when I see you in my mind baby Think of the words you will say And in a mist of desire Your love takes me away

Girl you take me away In a mist of desire And our love's not an ember baby It's a raging fire I need to be with you What else can I say In a mist of desire Your love takes me away

I feel the love when we touch I can see it in your face I get lost in the shadows of your warm embrace And you rush into my arms My emotions run wild And we're off to a love world In a mist of desire

Girl you take me away In a mist of desire And our love's not an ember baby It's a raging fire I need to be with you What else can I say In a mist of desire Your love takes me away

In a mist of desire Your love takes me away
