

Alabama, Spin The Wheel

We're standing like kids on a mid way,
Two hearts like tumbling dice,
We've lost control of the way we feel.

Old heart aches driving us crazy,
Is it really different this time?
We've come to far not to take a chance,
And spin the wheel!

Lay our hearts on the line,
Risk it all one more time,
Let it all ride on the way we feel

This could be another broken heart,
Or is it where true love starts?
Only one way to find out if this thing is real,
Just spin the wheel!

Round and round our dreams are rollin'
Will they land on love or good-bye?
My hearts on you head over heels

All I know is when I told you
Love is worth any chance we take
Baby lets let the chips fall where they may
Lets spin the wheel!

Lay our hearts on the line,
Risk it all one more time,
Let it all ride on the way we feel

This could be another broken heart,
Maybe this is where true love starts?
Only one way to find out if this thing is real,
Just spin the wheel!

Love is worth any chance we take
Baby lets spin the wheel!

Lay our hearts on the line (on the line)
Risk it all one more time (one more time)
Let it all ride on the way we feel

This could be another broken heart
Or maybe this is where true love starts
Only one way to find out if this thing is real
Spin the wheel.

Play are hearts on the line
Risk it all one more time
Let it all ride on the way we feel
And spin the wheel

Keep on spinnin? the wheel baby
Round and round it goes
Spinnin? the wheel
Spin the wheel
Round and round it goes
And spin the wheel
Spin the wheel
