

# Alabama, This Loves On Me

Sittin' alone at a table for two, when she walked in  
I was down on my second love,  
Swore I'd never do that again  
She sat down beside me and tried to explain  
That two bad loves don't spoil the whole darn game

The first love lies  
The second lover hurts you deep inside  
Now that you're free  
This love's on me

I thought my life was at the end of its rope  
Without true love, there could be no hope  
Then she asked if I would stay for the night  
She said, everything's gonna be all right  
The sun came up the very next day  
I knew what she meant when I heard her say

The first love lies  
The second lover hurts you deep inside  
Now that you're free  
This love's on me

--- Instrumental ---

She sat down beside me and tried to explain  
That two bad loves don't spoil the whole darn game

The first love lies  
The second lover hurts you deep inside  
Now that you're free  
This love's on me

This love's on me  
I'm gonna love away your misery  
Soon you will see  
This love's on me

Yeah, yeah, yeah, yeah, yeah, yeah.  
This love's on me  
I'm gonna love away your misery  
Now that you see  
This love's on me...
