

# Alabaster Box, There's Hope

days almost gone the shadows grow long  
i sit back and wait for tomorrow to come  
to bring me a change to start again

picked up the phone found out i'd been wrong  
on running the race all alone  
bout taking the reigns and going my way

## CHORUS

where would i be  
i cannot see but with you there's hope  
and what could i do but hold on to you  
cos with you there's hope

i realise im a thorn in my side  
can you come and swallow my pride  
and lend me a hand till i understand

## CHORUS

i fall on my face i'll learn from mistakes  
but you love me all the same  
its called your grace  
your love  
and your mercy
