Alan Parson Project, The, Stereotomy

Alan Parson Project, The Stereotomy Stereotomy Lead vocal - john miles

Diamond eyes That burn me and turn me to stone Crystalise And freeze me in clear monochrome

Turn me to stone; do anything you want with me Turn me to stone; do anything you want Stereotomy We can make it together Do anything you want with me Do anything you want

Scarlet minds Possess me and i feel no shame Silent knives Dissect me and i feel no pain

Stereotomy We can make it together Do anything you want with me Do anything you want Stereotomy We can make it forever Do anything you want with me Do anything you want

Starlight beams Project me in red blue and green Velvet dreams Protect me when i hit the screen

Stereotomy We can make it together Do anything you want with me, do anything you want Stereotomy We can make it forever It's always the same, it's always the same Stereotomy, we can make it We can make it, do anything you want

Turn me to stone Do anything you want with me Cover my eyes There's nothing more they need to see Turn me to stone Before there's nothing left of me Make me a rock And not what i appear to be Turn me to stone Turn me to stone
