

Alana Grace, Domino

Like a bird in flight I am running from myself
No help and no where to hide
You are close behind and the reason I won't stay
no way to be by your side
you are always working on me
I'm gravity when you're around

(Chorus)

Down I go like a domino
You fall and I fall baby
it's out of my control
and I am thrown like a domino
You started something and I can't stop it now
Always looked away
but with you I want to stare
I don't care
a sight to be saved
and it's beautiful
but you've got me on the edge
no ledge
and nothing to hold
you forever run into me
I'm gravity when you're around...

(Chorus x2)

You started something and i am going down
Down i go like a domino (x3)
You started something and i can't stop it now
