

Alanis Morissette, Dear Mathew

Dear Mathew I like you a lot

I realize you're in a relationship with someone right now
and I respect that

I'd like you to know that if you're ever single in the future
and you want to come visit me in California where I could be
over the spinning time with you and finding out how old you were
when you wrote your first song

Dear Jonathan I want you too much

I used to be a track to devise who would lie to me
and thinks only about themselves

and you were plenty selfdistructive for my taste of time
