

# Alarm, The, Across The Border (live Kbfh)

Alarm, The  
Kbfh Presents  
Across The Border (live Kbfh)  
&quot;this next song's about ireland  
It's called across the broder&quot;

Across the irish border  
And hidden in a car  
There's guns and ammunition  
That were smuggled to armagh

Well that's not right - and they should stop the fight  
And they should sort it out  
And they let them march and let them shout

Kill it shoot it down  
(and if you) bum it to the ground  
Kill it light the fuse  
What's the point and what's the use

Now mr. ian paisleys marching  
From ireland to 'l.a.'  
He's checking out your sympathy  
And guns for u.d.a.

Well that's not right - and they should stop the fight  
And they should sort it out  
And they let them march and let them shout

Kill it shoot it down  
(i'm gonna) bum it to the ground  
Kill it light the fuse  
What's the point & amp; what's the use

&quot;guitar&quot;

Now all the letter bombs are posted  
And the booby traps are laid  
And the british soldiers marching  
They're marching to their graves

Well that's not right - and they should stop the fight  
And they should sort it out -  
And they let them march  
And let them shout.

Kill it shoot it down  
(gonna) bum it to the ground  
Kill it light the fuse  
What's the point & amp; what's the use

Kill it shoot it down  
Bum it to the ground  
Kill it light the fuse  
There ain't no point because there ain't no use
