## Alarm, The, Change I

Alarm, The Change(remastered) Change I Change upon faces Changing hands Change in my father And my fathers land

Change, change, change, change, change

Change in the weather And it flies through a flag Change in the places I knew as a lad

Change, change, change, change, change

Change on the mountain
Where green was turned black
Change on the valleys
That take it all back
Change in a worker
With sweat on his hands
Condemned by a future
To the no mans land

Change in the rivers
Once clean, flowing fast
Made sad and dirty
By the tears of man
Change at my ankles
Holding me back
Change like an icon
Beckoning fast

Change, change, change, change, change
