Unsafe Building (live Kbfh)

&quot;thank you very much

This song is a song we put all our money into making when we were living in rhyll, north wales &am

Lare yourself unsafe&quot;

Declare yourself an unsafe building  
Suffer the indignation of your world  
To climb the ladders you've gotta suss out the snakes  
Remember your height remember to never look down.  
'cause now you've made your choice  
You've gotta take your chance  
Find a way out now

Now that i  
I have declared myself unsafe  
I have declared myself unsafe  
Unsound, unknown, unwanted, unnecessary  
I've been condemned

I'm unsafe  
Unsafe

Come out of the cupboard and into the real world  
Open the window and let some light into your life  
Because the bed you've made no  
You need not sleep in it  
Throw back the covers and make  
All of your dreams come true

Because it's dark in the tunnel  
But keep on coming through  
Straight down the line and sure enough  
You'll see the lights that shine

'cause now you're young  
You've got to run  
You've got to take your chance  
Of a way out now

I  
I have declared myself unsafe  
I have declared myself unsafe  
Unsound, unknown, unwanted, unnecessary  
I've been condemned  
I'm unsafe

And leave behind your bridges burning  
Take to hills  
For your time will soon come  
Because you're here for a purpose  
But you'll have to search for it  
Whatever it is  
You have got to decide  
Decide now, now that

I  
I have declared myself unsafe  
I have declared myself unsafe  
Unsound, unknown, unwanted, unnecessary  
I've been condemned

Declare yourself an unsafe building
