

Alathea, My Family

I know we need each other like the trees need the rain
Our Father brought us together to love in His name

CHORUS:

I will thank my God every time I remember you

I will praise Him constantly for my brothers, my sisters, my family

You're my brothers, my sisters, my family

I know your love has shaped me like water in a gorge

My Maker knew what I'd need and He gave me much more

CHORUS

Somehow your smile sustains me like the blood in my veins

Your hands soften the blow of my private pain

Somehow we can be forgiven like the turn of a leaf

His strength is made perfect when our spirits are weak

CHORUS
